

Seoul Orthohantavirus in Wild Black Rats, Senegal, 2012–2013

Appendix

Appendix Table. Small mammals trapped for Hantavirus screening and *Seoul Orthohantavirus* prevalence among black rats, Senegal, 2012–2013

Localities studied	The African grass rat (<i>Arvicanthis niloticus</i>) (no.)	The Gambian pouched rat (<i>Cricetomys gambianus</i>) (no.)	African giant shrew (<i>Crocidura olivieri</i>) (no.)	The Gambian gerbil (<i>Gerbilliscus gambianus</i>) (no.)	The Guinea multimammate mouse (<i>Mastomys erythroleucus</i>) (no.)	The Natal multimammate mouse (<i>Mastomys natalensis</i>) (no.)	The house mouse (<i>Mus musculus</i>) (no.)	Dalton's mouse (<i>Praomys daltoni</i>) (no.)	Fat mouse (<i>Steatomys sp</i>) (no.)	Black rat (<i>Rattus rattus</i>) (no.)	Seoul virus prevalence in black rats (%)
