

Precise Species Identification by Whole-Genome Sequencing of *Enterobacter* Bloodstream Infection, China

Appendix 3

The Update of Taxonomic Assignments of New Taxa Identified in this Study

Since the submission and acceptance of this manuscript, the taxonomy of *Enterobacter* has been substantially updated. The updated *Enterobacter* taxonomy is available at doi: 10.1128/mSystems.00527-20. The update of new taxa identified in this study is shown in the table below.

Appendix 3 Table. The update of taxonomic assignments of new taxons identified in genomic study of *Enterobacter* bloodstream infection

Taxonomic assignment in this study	Assignment in the updated taxonomy at doi: 10.1128/mSystems.00527-20
Taxon 1	<i>Enterobacter hoffmannii</i>
Taxon 2	<i>Enterobacter quasiroggenkampii</i>
Taxon 3	Taxon14
Taxon 4	Taxon 4
Taxon 5	Taxon 5
Taxon 6	<i>Enterobacter quasihormaechei</i>
